Applicant :- Khalil Ahmad 'Udwan of 'Azzun village,
Tulkarm S/D.

/Hamad I beg to submit that there is a land in my
ownership which falls within the lands of 'Azzun village and it is
known by the name of 'Izbit/Udwan. In 1940, the Forests Dept.
came to our village and demarcated the forests lands and have
included therewith part of my land. Since I am a poor man and
have no means with which to sue the said Department at the Land
Courts, I beg that this application be kept in the file of 'Azzun
village until the publication of the Settlement Notice of the
lands of the said village, when the right for my claiming ownership
of the said land can be preserved at that time, and kindly
accept my highest respects.

You will no doubt remember a conversation we had on 24.5.46 concerning the true position of Azzun Forest Reserve as shown on a 1/100,000 map in your possession and the Anglo-American Committee of Enquiry map 1/250,000.

2. I enclose a 1/10,000 map which shows the true position. It should always be borne in mind that the smaller the scale the less accurate the representation, for technical reasons.

Sir,

I am directed to refer to your letter dated the 4th December 1944 and 31st January 1945 regarding a plot of land falling within the Azzun Forest Reserve no.44, and to inform you that you may still, if you so desire, avail yourself of the opportunity of establishing any rights which you allege to have, under the Land (Settlement of Title) Ordinance when settlement operations commence in that area.

Petition by Khalil Ahmad Adwan of
Azzum Village, Tulkarm Sub-District.

Reference:- Your L/1/5/44 of 20.12.44 and 20.2.45.

Forest Reserve No. 44 was demarcated in 1940 in conjunction with a survey for land settlement purposes which was being carried out at that time in the area. All cultivated lands, without exception, as found at the time of demarcation, have been excluded from the forest. Sometime after the demarcation the petitioner encroached upon an area of about 5 dunams within the demarcated forest in which he planted some trees. A case was raised against him on 6.2.44. As a result he was ordered by the Magistrate, Tulkarm, to vacate the plot encroached upon and to give an undertaking for LR 50.- that no further use will be made by him of it pending decision of Land Settlement as to its ownership. A copy of the undertaking is attached hereto.

2. Land Settlement operations in the area, as far as known, are still at an early stage. The applicant may still, if he so wishes, avail himself of the opportunity to establish any rights he pretends he has to the plot claimed by him. His request for the grant of the plot to him on Badl Misl cannot obviously be considered at present, until after land settlement operations have been completed when such a request might eventually be dealt with by a State Domain Inspection Committee.

3. No building exists on the plot in question. It is understood that the petitioner owns other land in the village.

Khalil Ahmad Adwan of 'Azzun village, Tulkarem Sub-District, in a petition addressed to His Excellency the High Commissioner, states that he had received His Excellency's answer to his letter in dated the 4th December, 1944, in respect of his land which was taken by the Conservator of Forests. Pending His Excellency's decision in the matter, he submits the following representations:-

- 1) The land in question is not of the "Mawat" category, but is planted with fruit trees.
- 2) The land is the only source of his living.
- 3) The land is registered in the Land Registry Offices in the name of his father.
- 4) A building was constructed on the land since the Ottoman regime.
- 5) In case it is considered as "Mawat", he is prepared to take it and pay "Badal Al-Misl".

Petitioner requests that an enquiry be made particularly for the purpose of ascertaining the age of the trees.

He requests that he may be informed of the Government's decision at the earliest possible convenience to enable him to attend to the trees.

Khalil Ahmad Adwan of 'Azzoun village, Tulkarm sub-district, in a petition addressed to His Excellency the High Commissioner, states that he owns a piece of land planted with different kinds of trees, which he inherited from his father and grandfather. As this land was claimed by the Department of Forests and the Department of Land Settlement has registered it in the name of His Excellency, and as this land is the only means of livelihood of his family, petitioner requests that His Excellency may be moved to order its transfer to his name upon payment of "badal al mithal" in respect thereof.

Will it be possible for the Land Settlement Party that is to be based on Tulkarm next year to undertake the settlement of Azzun village lands.

2. As you know there is a Forest Reserve on the lands and parts of it are under dispute. It would be of very great help to Government if the matter could be cleared up.

3. I fully realise that to settle Azzun may upset your programme but I strongly urge that it should be undertaken if possible.

The survey of 'Azzun village was abandoned year ago because, I think, it was too difficult and slow.

I do not see any prospect of its settlement before the time when its turn comes in the programme of the next area to be done by my party. The area is Jenin and that part of Tulkarm not now settled. From the situation of 'Azzun, I should say it would be several years before settlement is taken up there.

Please see my judgment in the Meirun Forest cases, in connection with your letter to the conservation of Forests.

Azzun has been surveyed but I do not expect that it can be put under settlement during the next few months. I suggest that you should do whatever you can under the Forest Ordinance to protect the declared Forest Reserve as such but I do not think that your officers should do anything which might appear to be an admission by a Government officer that part of the reserve is privately owned or that a private claim to it is reasonable or well-founded. This might later debilitate Government's claim to the land.

I am afraid we cannot advise the Conservator to act as suggested in the closing sentence of para 4 of folio 4A. If the land concerned is forest land declared as forest reserve he can protect it under the Forest Ord. until the advent of L. S. If it is not a declared forest reserve, I suggest that he should do nothing that will prevent Govt. from claiming it in the future. His Dept. is not competent to ~~decide with~~ decide whether a private claim is reasonable & well founded.

Subject :- Azzun Forest Reserve No. 44 - Azzun
village - Tulkarm S/District.

The demarcation of the above reserve was carried out by this Department in April, 1940, in conjunction with a survey of the village lands of Azzun, for settlement purposes carried out at that time by the Department of Surveys, for the purpose of recording forest claims in the Registration Block maps. It appears that no further steps have been taken since for the actual settlement of the demarcated forests.

2. After the demarcation a complaint was received at this office from several inhabitants of Azzun, claiming that some cultivated and cultivable areas belonging to them had been included within the demarcated forests and asking for their exclusion from the forests and for permission to cultivate the land.

3. Forest Inspector 'Lands' examined the claims on the spot in November, 1941. A copy of his report on the matter is attached hereto.

4. In view of the fact that the claimants and the District Administration, Tulkarm, are now pressing for a definite reply, I propose that an enquiry be made at the Department of Land Settlement whether they intend to take up the settlement of Azzun village lands in the near future, say up to the end of 1943. If so, the claimants will be advised to await the results of land settlement. Otherwise it would seem necessary to tackle the matter at closer hand and find out what could be arranged in an amicable way with regard to those claims which are reasonable and well founded.

On 19.11.41 I have inspected the above named Forest Reserves and found that there are parts of the claims which are reasonable. The claimants suggested to make amicable agreement with the Department for the settlement of these claims. There was no sufficient time to inspect all the lands claimed, but most of them were seen. It will be convenient that the suggestion may be dealt with in case that the Settlement Officer will not start investigating in this village during the near future.

It has been the practice, with regard to areas declared Forest Reserves to ask Registrars ~~if~~ the area is registered.

When the area is declared a Forest Reserve, cultivated areas are, in theory, shown on the plan of the Forest, but no copies of such maps have been sent to this office. I have already asked the Survey Department to send us copies of all Forest maps in their possession. This point is very important as otherwise, there are no means to check encroachments, but pending the complete survey of all Forest areas, I do not think that anything more can be done.

The registration to which the Registrar refers is that of cultivated plots. I am writing to him to the effect that the information contained in his letter is noted, but that nothing further can be done for the time being.
